

Anna and her family are sharing some time with family for a few weeks. She will be back on Monday 22nd July.

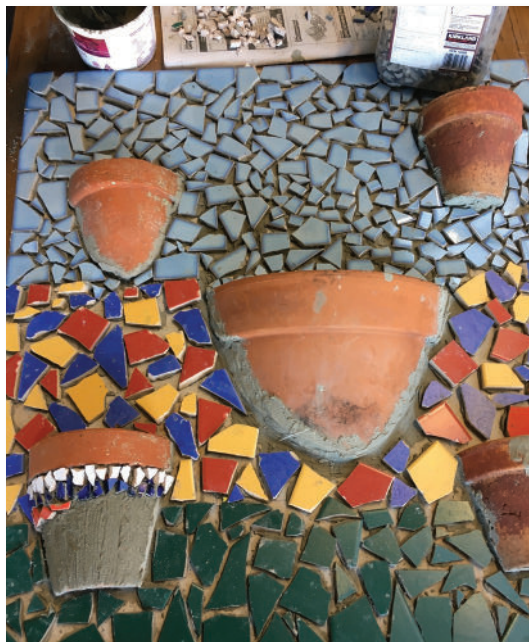

## *While Anna's away...*

The Community House is still open and running with the help of Members who have generously given up many of their days. If the House has to be empty for a short time while an errand is run, you will find a notice on the door and a phone number to ring. A big thank you to all who give so much of their time and energy to our local Community House.

### **MOSAICS**

The Mosaics Artisans have been working away and having a wonderful time. All of their creations are different.

### ***Exploring Strathbogie Tablelands***

In May seven intrepid walkers in the NLCH's Walking Group headed west, through Euroa to the Strathbogie Tablelands. Warm ups were eagerly performed at Polly McQuinns, on Sevens Creek, where the water was racing over the concrete dam wall and onto large exposed granite rocks.

The water snaked around boulders, traversing a gently sloped granite plateau before reaching a deep pool surrounded by native vegetation. A ghost is said to haunt the waterhole at Polly McQuinns Reserve; named from a tragic drowning.

Rumour has it the waterhole is bottomless and that is why there was no trace of Polly or his horse!!!!!!

Next was the "Bridge To Bridge Walk" at Strathbogie township. This was a short easy walking track, (a project of Strathbogie Landcare Group,) a trek through reinstated native woodland behind the town. The track ran between the two main bridges leading in and out of Strathbogie, north and south. A hot cuppa at Strathbogie café warmed us all before the most demanding section of our day's walk that was to come next.

Mt Wombat summit was our next goal. Leaving the cars behind, halfway up the mountain, we strolled along the flat track until we reached and scaled the steep pathway to the top!! What a reward for us as we made it to the summit- vast 360 degree views of a picturesque landscape. We could pinpoint Nagambie from the top!!!!
